MAGNETIC STIRRER WITH HEATING

SolidSteel

// CABINET FEATURES:

- 1020 carbon steel;
- Corrosion resistant;
- Epoxy powder textured coated steel;
- Rubber feet;
- Safety fuse holder;
- Polycarbonate frontal label.

// INCLUDED ACCESSORIES:

- 1 magnetical bar PTFE 7 X 30mm;
- Safety fuse.

// OPTIONAL:

- Calibration certificate from RBC/INMETRO for the equipment.

// TECHNICAL DATA:

SPEED CONTROL	Eletronic digital system
HEATING CONTROL	PID system controller by microprocessor
PANEL	Polycarbonate water proof texture
PRE SET ON/OFF	Switch key
CAPACITY	10 liters of water or similar density liquid
STIRRING PLATE MATERIAL	Brushed aluminium – size 17 x 17cm
SPEED	0 up to 3,000 rpm
TEMPERATURE RANGE	50°C up to 300°C
POWER	350 W
POWER CABLE	3 pins – Brazilian Standard (NBR14136)
ELECTRIC POWER	110V or 220V (to be defined)
MOTOR TYPE	DC - permanent magnet

// MODEL DETAILS:

MODEL	SURFACE MEASURE	OVERALL DIMENSION	RPM	POWER
SSAGDa	17x17 cm	13x19x19 cm	0 up to 3000	350 W

Notice: Any product presented can be produced according to customer's needs. All models come with English instruction manual. 1-year warranty against manufacturing defects.
